

## Flow Measurement

SITRANS FM (electromagnetic)

Flow sensors

MAG 8000 for abstraction and distribution network application (7ME6810)

### Overview

3

### Benefits

#### **Easy to install**

- Compact or remote solution with factory mounted cable
- IP68/NEMA 6P enclosure. Sensor can be buried.
- Flexible power supply - internal or external battery pack or mains power supply with battery back-up possibilities

#### **Long-term stability/Low cost of ownership**

- No moving parts in a robust construction means less wear and tear
- Basic and advanced transmitter versions with different optional add-on communication modules fulfil various customer requirements for high cost efficiency
- Up to 0.2 % maximum uncertainty
- Bi-directional measurement with an outstanding low flow performance
- Up to 10 years maintenance-free operation in typical applications

#### **Intelligent information, easy to access**

- Advanced information on site
- Advanced statistics and diagnostics
- Optional high-performance 3G/UMTS module offers an efficient solution for remote measurement and monitor via wireless networks.

## Overview

## Benefits

### Approvals

- MI-001, OIML R 49/OIML R 49 MAA
- FM Fire Service

### Easy to install

- Compact or remote solution with factory mounted cable and customer setting from factory
- IP68/NEMA 6P enclosure. Sensor can be buried.
- Flexible power supply - internal or external battery pack or mains power supply with battery back-up possibilities

### Long-term stability/Low cost of ownership

- No moving parts in a robust construction means less wear and tear
- Basic and advanced transmitter versions with different optional add-on communication modules fulfil various customer requirements for high cost efficiency
- Bi-directional measurement with an outstanding low flow performance
- Up to 10 years maintenance-free operation in typical applications
- Insignificant pressure drop

### Intelligent information, easy to access

- Advanced information on site
- Advanced statistics and diagnostics
- Connectable to common AMR systems

### MAG 8000 CT for revenue and bulk metering (7ME6820)

#### Technical specifications (continued)

##### MAG 8000 CT (Revenue program) MI-001

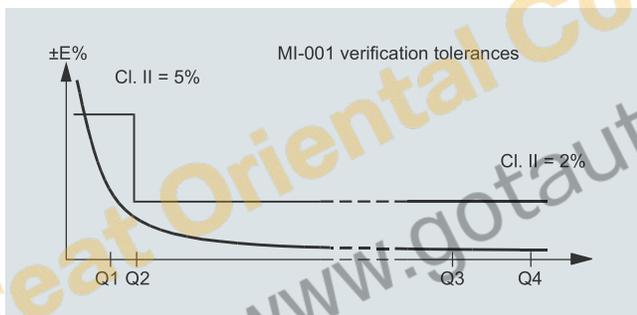

MAG 8000 CT program is type approved according to international water meter standard OIML R 49. Since the first November 2006 the MI-001 water meter directive is in force, which means that all water meters can be sold across the EU borders if the water meters contain a MI-001 label.

The MAG 8000 CT MI-001 verified and labeled products are a Class II approval according to Directive 2014/32/EU of the European Parliament and Council of 26 February, 2014 on measuring instruments, Annex III Water meters (MI-001) in the sizes from DN 50 to DN 600.

The MID certification is obtained as a B + D module approval according to the above mentioned directive.

Module B: Type approval according to OIML R 49

Module D: Quality insurance approval of production

**MAG 8000 CT MI-001** verified and labeled products at a given  $Q3$  and  $Q4/Q3 = 1.25$  and  $Q2/Q1 = 1.6$  measuring ranges see below table:

Made in France			

#### Installation conditions

Please refer to "System information SITRANS FM electromagnetic flowmeters".

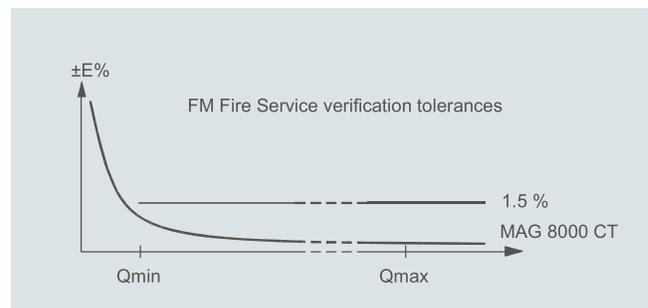

#### Battery operation time and calculation

The battery operation time depends on the connected battery pack as well as the operation condition of the meter.

MAG 8000 calculates the remaining capacity every 4 hours and includes all consuming elements. Calculation compensates for temperature influence on battery capacity (drawing).

#### MAG 8000 CT (7ME6820) for Fire Service applications

MAG 8000 CT (7ME6820) is FM Fire Service approved for automatic fire protection systems according to the Fire Service Meters Standard, Class Number 1044. The approval is applicable for the sizes 50, DN 80, DN 100, DN 150, DN 200, DN 250, and DN 300 (2", 3", 4", 6", 8", 10", and 12") with ANSI B16.5 Class 150 flanges. The FM Fire Service approved product can be ordered via the Z-options P20, P21 and P22.

### MAG 8000 3G/UMTS Wireless Communication Module

#### Overview

3G/UMTS communication module

PC-IrDA connection

#### MAG 8000 3G/UMTS Wireless Communication Module

The 3G/UMTS wireless communication module is a compact built-in solution which can be installed in the existing MAG 8000 with SW version 3.02 and higher, supporting HSDPA cat. 8/HSUPA Cat.6 at 5 UMTS bands, with the ability to fall back to GSM/GPRS network in case there is no 3G signal.

The 3G/UMTS module collects comprehensive measurement data from MAG 8000 at an interval down to 1 minute, allows for data transmission via numerous protocols including SMS, email via SMTP, email via SMTPS (TLS/SSL-based encryption), FTP, and FTPS (TLS/SSL-based encryption, implicit), with a customer configurable transmission interval (down to 1 hour). This provides customers with the flexibility to receive data via email, FTP or text message for the monitoring and control systems anywhere in the world.

TLS/SSL based data encryption provides a high level information security to protect customers data privacy.

The 3G/UMTS module offers

- Remote Qualification Certificate feature to enable the offsite diagnostic and audit on devices installed anywhere in the world
- 2-channel analog input measurement for external ratiometric pressure transmitter, transmission together with flow measurement (2-in-1 solution)
- 4-20 mA alarm signal detection and realtime SMS alarm for tamper protection and flooding situations
- Real-time clock synchronization with internet NTP server, ensuring that all measurement data is accurately time-stamped
- Data transmission at customer-specified points in time, allowing for synchronization of information from multiple MAG 8000 devices

The OPC server specifically designed for the MAG 8000 3G/UMTS module is offered free of charge. With this value-added package, the opportunity for measurement data collection and further processing/analyzing for system integration and automation is offered.

The package of information retrieved via the csv file includes:

- Time stamp
- Flow rate
- Tot 1
- Tot 2
- Tot 3
- Analog 1 (mA)
- Analog 2 (V)
- Battery lifetime
- Alarm list (as decimal format)

#### Accessories

Description	Article No.		Description	Article No.	
PC Flow Tool on CD (Download for free from <a href="http://www.usa.siemens.com/flow">www.usa.siemens.com/flow</a> )	<b>FDK:087L6001</b>		One cable entry 2 ... 5 mm (0.08 ... 0.20 ") M12 brass glands with M20 reduction <sup>2)</sup> . Package of 10 pcs, for 3G/UMTS module antenna cable, power cable of external battery pack, encoder card cable.	<b>FDK:087L4154</b>	
IrDA infrared interface adapter with USB for data acquisition with 1.2 m (3.9 ft) cable	<b>FDK:087L4163</b>		One cable entry 6 ... 8 mm (0.24 ... 0.31 ") M20 brass glands pack- age <sup>2)</sup> (10 pcs), for pulse output cable or MODBUS cable, Cello cable or mains power supply	<b>FDK:087L4155</b>	
Battery backup for mains power supply, 1 pc. D-cell (3.6 V, 16.5 Ah) <sup>1)</sup>	<b>A5E03354392</b>		One cable entry 8 ... 11 mm (0.31 ... 0.43 ") M20 brass glands package <sup>2)</sup> (10 pcs), for SOFREL cable	<b>FDK:087L4156</b>	
Rechargeable Lithium battery for MAG 8000 3G/UMTS communi- cation module <sup>1)</sup>	<b>A5E03436686</b>		One cable entry 11 ... 15 mm (0.43 ... 0.59 ") M20 brass glands package <sup>2)</sup> (10 pcs)	<b>FDK:087L4157</b>	
Internal battery pack, one set of 2 D-cell (3.6 V, 33 Ah) and accesso- ries for replacement <sup>1)</sup> incl. NBR O-ring	<b>FDK:087L4150</b>		Two cable entries 3.5 ... 5 mm (0.14 ... 0.20 ") M20 brass glands package <sup>2)</sup> (10 pcs)	<b>FDK:087L4158</b>	
External battery pack IP68/ NEMA 6P with connector, 4 D-cell (3.6 V, 66 Ah) <sup>1)</sup> . Order cable FDK:087L4152 separately.	<b>FDK:087L4151</b>		Two cable entries 5.5 ... 7.5 mm (0.22 ... 0.30 ") M20 brass glands package <sup>2)</sup> (10 pcs)	<b>FDK:087L4159</b>	
Mains power supply 12 ... 24 V AC/DC (average power consumption during line ≤ 0.1 VA) with battery backup and 3 m (9.8 ft) power cable for exter- nal connection (backup battery not included) Temperature range: Fixed laying: -40 ... +90 °C (-40 ... +194 °F) Flexible application: -30 ... +80 °C (-22 ... +176 °F)	<b>FDK:087L4210</b>		High gain antenna for MAG 8000 3G/UMTS (PVC, IP68, cable length 5 m (16.4 ft), with SMA male connector (type RG 58) and internal antenna adaptor cable, and single entry cable gland)	<b>A5E40957990</b>	
Mains power supply 115 ... 230 V AC, 50/60 Hz, with battery backup up and 3 m (9.8 ft) power cable for external connection (backup battery not included)	<b>FDK:087L4211</b>		Analog input cable for MAG 8000 3G/UMTS (2.5 m (8.2 ft) cable with M12 connector (IP67) A-Coding female 5 pins, and two-entry cable gland)	<b>A5E03436698</b>	
RS 232 add-on module, point to point communication interface with Modbus RTU protocol	<b>FDK:087L4212</b>		Potting kit for terminal box of flow sensors for IP68/NEMA 6P	<b>FDK:085U0220</b>	
RS 485 add-on module, multidrop communication interface with Modbus RTU protocol	<b>FDK:087L4213</b>		MAG 8000 Hardware key to access protected parameters	<b>FDK:087L4165</b>	
Encoder interface module, with "Sensus" protocol for ITRON 200WP and 100W radio	<b>A5E02475650</b>		MAG 8000 demo - training unit pack operating on Alkaline batter- ies. Transmitter with Flow tool CD, IrDA interface adapter and hard- ware key (No dangerous goods limitations)	<b>FDK:087L4080</b>	
MAG 8000 3G/UMTS module. Rechargeable battery, antenna and analog cable input must be ordered separately	<b>A5E41011589</b>		Antenna adaptor cable for 3G/UMTS module (2 pieces)	<b>A5E41896494</b>
